

Webinar Outreach Event Local Highway Bridge Program Reform Policies

Background: Caltrans is working with the local agency representatives of the Highway Bridge Program Advisory Committee (HBPAAC) to reform Highway Bridge Program (HBP) policies and guidelines to address the program backlog and project delivery issues. The reform policies include additional accountability measures to control cost, scope, and schedule changes as well as potential changes to eligibility, oversight requirements, and programming guidelines. For more background information visit our [blog](#).

Webinar Objective: Share HBP reform policies and associated background with local agency staff & stakeholders who deliver HBP projects. Receive feedback on the policies to take back to the HBPAAC.

Who should attend? City & County Engineers, Project Managers, Public Works Officials / Executives, and Consultants who work to deliver local agency bridge projects.
