Partners:

Workshop Program

The three-day workshop aims to facilitate transportation workforce development by providing state-of-art training for asphalt technology and pavement material testing on aggregates, asphalt binders, and asphalt mixtures, following AASHTO and Caltrans test methods. The workshop includes

- ✓ Technical Lectures
- ✓ Hands-on Laboratory Testing (10 tests in 3 days)
- ✓ Road Pothole Patching
- ✓ Field Tour at an Asphalt Production Plant

Benefits

The participants will

- ✓ Learn the latest asphalt technology, pavement preservation, and lab testing
- ✓ Connect with Industry & Agencies
- ✓ Build resume for internships & jobs
- ✓ Visit Chico State campus & facilities
- ✓ Receive a certificate for participation
- ✓ Receive \$300 stipend to cover 3-day living cost for non-Chico-resident students
- ✓ Complimentary meals for all participants

Participants

This workshop will host 10 participants in summer 2024. Current students from Butte College, Feather River College, Woodland College, Shasta College, Yuba College, Chico State, Sac State, UC Davis, UOP, and other Colleges in California. Entry-level engineers from industry and local agencies in Northern California are welcome to attend.

Schedule

The workshop will be tentatively scheduled 3 days between May 20th and 31st, 2024. The exact date will be coordinated once 5 participants are enrolled
